Sunepa091522@gmail.com · (19) Sunday Emmanuel | LinkedIn · React App (my-portfo-lilac.vercel.app)

Professional Summary

A highly motivated and skilled programmer with a strong passion for coding and technology. Demonstrated ability to learn quickly and adapt to new technologies. Developed a fully functional web application within just 10 months of learning, showcasing commitment and enthusiasm. Adept at working on diverse projects, ranging from efficient algorithms to engaging user interfaces.

Core Competencies

- 🐍 Python
- 🚀 Java
- 🌐 Django
- ⚙️ Spring Boot
- ⚛️ React
- 🦅 NestJs
- 📦 NodeJs
- 🗄️ MySQL
- 🍃 MongoDB
- 🎨 UI/UX Design

Work History

Intern
Boj Tech Company
September 19, 2022 – September 10, 2023

- Developed efficient algorithms for data processing.
- Created engaging user interfaces for client applications.
- Contributed to a cutting-edge mobile application, implementing real-time chat functionality and push notifications.
- Worked on a secret project involving machine learning and natural language processing.
- Conducted code reviews and participated in team discussions.

- Organized team-building events, fostering a positive team culture.

Education

SEMICOLON
12 Months

Self-Paced Learning
10 Months

- Developed a fully functional web application from scratch.
- Mastered various programming languages and technologies.
- Achieved hands-on experience with Java, Python, Django, Spring Boot, React, MySQL, NestJs, NodeJs, MongoDB.

High School Graduate *Hifas*

Focused on practical, hands-on learning and gaining real-world experience in programming. Continuous learning and staying updated with industry trends are key priorities.

Projects

- **Web Application Development**: Developed a fully functional web application using React, NodeJs, and MongoDB. Implemented features such as user authentication, data visualization, and responsive design.
- **Mobile Application**: Contributed to a mobile application project, implementing real-time chat and push notifications using Java and Firebase.
- **Machine Learning Project**: Worked on a secret project involving machine learning and natural language processing. Developed algorithms to process and analyze large datasets.

Certifications

- Certified Java Developer
- Python for Data Science and Machine Learning • Full Stack Web Development with React

Skills

- Programming Languages: Python, Java
- Web Development: Django, React, NodeJs, NestJs
- Databases: MySQL, MongoDB
- Frameworks: Spring Boot
- Design: UI/UX
